

Sinclair Broadcast Group's is dictating the terms of broadcast to its affiliates and reducing the local autonomy local communities have over the content of its airwaves.

I do not feel there is anything in this that is 'liberal' or 'conservative.' It's about Sinclair using the public airwaves to sway an election and calling their broadcast 'news' to avoid election laws that require balance and transparency. I would feel exactly the same way if it were doing it to deliberately sway voters against our President.

Thanks for your attention in this important matter.
